# Biplob Kafle

## Student

Hello, everyone! My name is Biplob kafle and I'm from Nepal. I'm currently studying IT, and I hope to become programmer/coder one day. I'm really passionate about coding, and I'm always looking for new ways to learn and improve my skills.

## EXPERIENCE

- I am so sorry to say that i have no any experiences in any company or any it related jobs. I am currently studying and learning programming language. Now i feel like i am able to do the job so going to apply for intern or direct work in various company for experience.

## TRAINING/CERTIFICATIONS

- I have been learning various programming language by the help of youtube videos and various sources. It help me to provide me the motivation to learn more about various programming language and while writing the code or even the markup language it makes me very happy and i enjoy so much while learning code.

## PROJECTS

- Clone popular website/ simple unresponsive portfolio**  
I have tried to do the clone of popular sites like google, Netflix, Youtube with the help of youtube video. I also tried to make the portfolio using HTML and CSS by the knowledge i have learned.
